PROFESSIONAL EXPERIENCE

IT Development Lead

Jan 2025 – Nov 2025 | Caracas, Venezuela

Atenas Grupo Consultor 

- Led development teams, coordinating projects and ensuring quality at every stage.
- **Designed and built the company's corporate website from scratch** using **WordPress**, enhancing digital presence and institutional communication.
- **Directed and contributed to the development of a new internal product** using **React.js, TailwindCSS, and Zustand**, collaborating closely with the development team to deliver a scalable and modern solution.
- Promoted the adoption of new technologies and agile methodologies to improve processes and products.

Full Stack Developer

Apr 2024 – Feb 2025 | Caracas, Venezuela

Empathy AI

- **Frontend Development:**
 - Transformed Figma designs into interactive React components using Next.js, delivering pixel-perfect user interfaces.
 - Implemented clean, efficient, and scalable React architectures to ensure maintainability and performance.
 - Developed fully responsive designs to provide optimal user experiences across various devices.
 - Integrate AI API's from diferent providers (OpenAI, Gemini).
- **Backend Development:**
 - Defined database schemas and integrated them with backend ORM to manage data effectively.
 - Created and integrated robust APIs to facilitate communication between the frontend and backend, ensuring seamless data flow and functionality.
 - Integrate Azure CosmosDB and Blob storage with the application.

Web Developer

Sep 2023 – Mar 2024 | Caracas, Venezuela

Kentron Sistemas de Información 

- Part of the development team tasked with migrating the Kerux application, a comprehensive ERP system utilized by SENIAT, under the Venezuelan Ministry of Finance. My role involved developing the user interface with React.js, utilizing reusable components, routing, and Redux for state management.
- Integrated React Query and Axios for efficient server communication. Utilizing Material-UI, I contributed to a cohesive and appealing user experience.
- Successfully completed 19 user stories aimed at enhancing the application's functionality and user interaction. Additionally, I resolved over 20 quality issues, ensuring the delivery of products that adhered to our company's standards. My contributions included designing and developing key components like the menu tree and submenu, improving the application's navigability.
- Implemented dynamic tables and tabs, enabling users to interact with the database via APIs for reading, modifying, adding, or deleting information.

EDUCATION

Full Stack Software Development

Aug 2022 – Dec 2022 | Caracas, Venezuela

4Geeks Academy 

Project Based Program

Business Marketing Specialist

Apr 2012 – Nov 2016 | Caracas, Venezuela

Central University of Venezuela 

Postgraduate Course

Production Engineering

Sep 2003 – Feb 2009 | Caracas, Venezuela

Simon Bolivar University 

Bachelor's Degree

SKILLS

HTML5/CSS3, TypeScript, GIT/Github, React.js, Python, Flask, REST API, SCRUM, SQL/SQLAlquemy, Postgresql API's, Figma, Redux, Jira, Material UI, Next, Zustand
